

Winter Season Craft

Supplies:

- *1 Old CD
- *Recycled holiday card
- *White, yellow paper (green, and black if you don't have a packet from the Library)
- *pipe cleaners, 1 red and 1 white
- *ribbon
- *glue, tape
- *scissors

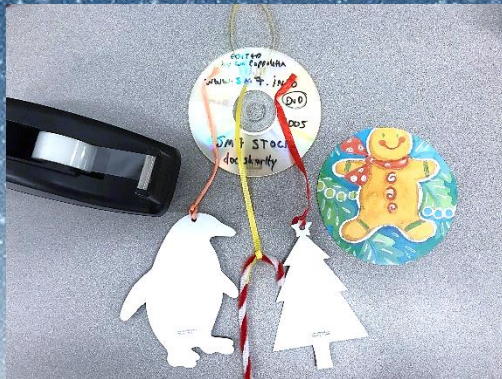

1. Twist the two pipe cleaners together to make a candy cane. After you twist the pipe cleaners, bend one end into a hook then tie a piece of ribbon onto the hooked end.

2. Next, use the wooden pencil to scratch shapes into the tree and penguin. Tie a ribbon to each shape. *If you don't have these shapes, cut out two winter shapes of your own and draw patterns on them. For the black paper you can use white crayons.*

3. Take an old CD and flip it to the shiny side. Glue the white circle first. Then, glue the moon on top. You can decorate the moon face too. If you don't have a library packet, take white paper and cut a 4 inch diameter circle. With the yellow paper, use the CD to trace a half circle then draw a profile (side of the moon face). Cut it out and follow the steps above.

4. Flip the CD over (the side with writing on it). Tape the penguin, the candy cane, the tree and a loop at the top to hang your creation.

5. Glue the festive paper circle to cover the taped ribbon. If you don't have a library packet, trace a circle using the CD as a templet on some festive wrapping paper, then follow the instructions above.

Tada! Seasons Greetings!
